OF

BOWDOIN COLLEGE

AND THE

MEDICAL SCHOOL OF MAINE

1890-91

BRUNSWICK
1890

BOWDOIN COLLEGE was incorporated by the General Court of Massachusetts, upon the joint petition of the Association of Ministers and the Court of Sessions, of Cumberland County. The act of incorporation was signed by Governor Samuel Adams, June 24, 1794.

The College was named in honor of JAMES BOWDOIN, a graduate of Harvard in 1745, a delegate to the first Congress in Philadelphia, the President of the Convention which adopted the Constitution of Massachusetts, and subsequently Governor of the State. In addition to his civil honors he was a member of various foreign societies, the first President of the American Academy of Arts and Sciences, and a valued friend and correspondent of Benjamin Franklin.

The earliest patron of the College was the Hon. James Bowdoin, son of the Governor. He was graduated at Harvard College in 1771, and subsequently studied at the University of Oxford. In President Jefferson's administration he was appointed successively Minister Plenipotentiary to the Court of Spain, and Associate Minister to the Court of France. During his residence abroad he accumulated a valuable library, a collection of paintings and drawings by old and modern masters, a cabinet of minerals and fossils, together with models of crystallography, all of which he bequeathed to the College. During his life-time he gave land, money, and apparatus to the College, and at his death it became, by will, his residuary legatee.

TRUSTEES.

REV. WILLIAM DEWITT HYDE, D.D.,
PRESIDENT.

REV. JOHN ORR FISKE, D.D.,
VICE-PRESIDENT.

HON. JAMES WARE BRADBURY, LL.D.

HON. JOSHUA LAWRENCE CHAMBERLAIN, LL.D.

ADMISSION TO THE COLLEGE.

Candidates for admission to the Freshman Class are examined in the following subjects, text-books being mentioned in some instances to indicate more exactly the amount of preparatory work required. Equivalents will be accepted so far as they refer to books and authors.

Latin Grammar, including Prosody. The Roman pronunciation is used in college instruction and is therefore recommended.

Latin Prose Composition—Daniell's Exercises.

Cæsar—Gallic War, Books I–IV.

Cicero—Orations against Catiline, for the Poet Archias, and two others.

Virgil—Æneid, Books I–VI.

Translation at sight of easy passages from Cæsar and Cicero.

Greek Grammar.

Greek Prose Composition.

Xenophon—Anabasis, Books I–IV.

Homer—Iliad, Books I–II.

Translation at sight of easy passages from Xenophon.

Ancient Geography.

Outlines of Greek and Roman History.

Arithmetic, especially, common and decimal fractions, interest and square root, and the metric system.

Algebra, as far as logarithms in Wentworth's Treatise.

Plane Geometry.

English Grammar and Composition.—Each applicant will be required to write a short composition based on standard works in English Literature. The subjects will be drawn from two or three of the following works :

For 1891—Shakespeare's Julius Cæsar and Merchant of Venice; Coleridge's Ancient Mariner; Longfellow's Evangeline; Macaulay's Essay on Lord Clive; Webster's first Bunker Hill Oration; Irving's Alhambra; Scott's

Old Mortality; George Eliot's Silas Marner; Hawthorne's House of the Seven Gables.

For 1892—Shakespeare's Julius Cæsar and As You Like It; Scott's Marmion; Longfellow's Courtship of Miles Standish; The Sir Roger de Coverley Papers in the *Spectator*; Macaulay's second Essay on the Earl of Chatham; Webster's first Bunker Hill Oration; Irving's Alhambra; Scott's Talisman; George Eliot's Scenes from Clerical Life; Hawthorne's House of the Seven Gables.

For 1893—Shakespeare's Julius Cæsar and Twelfth Night; Scott's Marmion; Longfellow's Courtship of Miles Standish; The Sir Roger de Coverley Papers in the *Spectator*; Macaulay's second Essay on the Earl of Chatham; Emerson's American Scholar; Irving's Sketch Book; Scott's Ivanhoe; Dickens's David Copperfield.

For 1894—Shakespeare's Julius Cæsar and Merchant of Venice; Scott's Lady of the Lake; Arnold's Sohrab and Rustum; The Sir Roger de Coverley Papers in the *Spectator*; Macaulay's second Essay on the Earl of Chatham; Emerson's American Scholar; Irving's Sketch Book; Scott's Abbot; Dickens's David Copperfield.

PRELIMINARY EXAMINATION.

Students who have not completed their preparatory course, but who pass a satisfactory examination in Arithmetic, Latin Grammar, Cæsar, and one other Latin author, Greek Grammar and Xenophon's Anabasis, may receive a certificate excusing them from examination in these subjects the following year. Such certificates will be given for neither more nor less than subjects mentioned.

Candidates for admission to the Sophomore, Junior, and Senior classes are examined in the studies already pursued by the class which they wish to enter, equivalents being accepted for the books and authors studied by the class, as in the examination on the preparatory course. No one is admitted to the Senior class after the beginning of the second term.

The regular examinations for admission to college are held in Massachusetts Hall, in Brunswick, on the Friday and Saturday after Commencement, June 26 and 27, 1891, and on the Friday and Saturday before the opening of the first term, September 11 and 12, 1891. At each examination attendance is required at 8.30 A.M. on Friday. The examination is chiefly in writing.

Examinations for admission to the Freshman class are also held, at the close of their respective school years, at the Washington Academy, East Machias, and at the Fryeburg Academy,

these schools having been made special Fitting Schools for the College by the action of their several Boards of Trustees, in concurrence with the Boards of Trustees and Overseers of the College.

In view of the expense and inconvenience often accompanying the attendance of candidates in Brunswick during Commencement week, the Faculty will furnish the principal of any academy or high school having a regular course preparatory for college of at least three years' duration, with printed examination papers for the use of such pupils as he believes prepared to enter college, provided they desire to join the next Freshman class.

The examinations are to be conducted by the principal on June 14 and 15, 1891, and the results at once sealed and sent by mail to the President. A report of the examination will be made to the principal and also to the candidates by Commencement Day.

Testimonials of good moral character must in all cases be received before tickets of admission are granted. A testimonial is preferred from the teacher under whom the preparatory course was completed. A student from another college, before he can be examined, must present a certificate of regular dismissal.

A bond for two hundred dollars, with satisfactory sureties, must be filed with the Treasurer by every student on his admission to college, as security for the payment of his Term Bills and any other charges that may arise under the College Laws. A blank form for this purpose will be given with the ticket of admission.

SPECIAL STUDENTS.

Persons who give evidence of maturity, earnestness of purpose, and adequate preparation will be allowed to pursue special studies, either by themselves or in connection with the regular classes, without becoming matriculated members of the College.

THE COURSE OF STUDY.

The course of study is adapted solely and strictly to students desiring a liberal education. Every student must acquire the discipline of Algebra, Geometry, and Trigonometry, ability to read Latin, Greek, French, and German, and an elementary knowledge of Hygiene, Elocution, Rhetoric, Logic, Physics, Chemistry, Geology, Astronomy, Psychology, Ethics, and Political Economy. The required studies occupy the whole of the Freshman year, and one-half of each of the last three years. The remainder of the curriculum is elective, and includes courses in Botany, Zoölogy, Physiology and Histology, Chemistry, Physics, and Astronomy, on the side of natural science; and courses in Latin, Greek, French, German and English Literature, Bible Study, History, Sociology, and the Science of Government, on the side of literature and the life of man.

PHILOSOPHY.

The course in Philosophy includes Psychology, History of Philosophy, and Ethics. Psychology is taught with constant reference to its practical bearings, the aim being to apply the laws of the mind to the formation of correct habits of reading and thinking, rational methods of teaching, an effective style of writing and speaking, and a healthy and vigorous intellectual life.

It is the aim of the study of the History of Philosophy to familiarize the student with the spirit and method of speculative thought, and to stimulate inquiry and reflection on the grounds of rational certitude and religious faith.

The course in Ethics includes a review of modern ethical systems, from Hobbes and Kant to Spencer and Green, and concludes with a presentation of the more prominent particular duties which are essential to man's realization of himself as a social and spiritual being.

HISTORY AND POLITICAL SCIENCE.

History is offered as an elective to the Juniors. The first two terms are given to English History down to the Revolution of 1688, and Modern History occupies the third term. While requiring a knowledge of the important political facts as presented in the text-book, particular stress is laid upon the economic and social life of the people and upon constitutional development, for the investigation of which abundant materials are accessible to the class in the College Library. Modern History is treated as largely concerned with the growth of the two great ideas of nationality and democracy. The study of historical documents and contemporary accounts is believed to afford the best inspiration even in elementary work.

The required work in Political Economy of the second term of Senior year is fundamental, and is followed in the third term by the Economic History of the United States, with practical problems in Economics. The method is analytic and Socratic rather than dogmatic. There is also offered to the Seniors an elective in Political Science and Sociology running through the year. Political Science, with the history of political institutions, is first considered. The second term is given to the history of social institutions, including prehistoric sociology and anthropology; and the third term to contemporary and applied sociology, embracing the problems of criminology, pauperism, city aggregations, and kindred topics.

RHETORIC, ORATORY, AND ENGLISH LITERATURE.

In the department of Rhetoric, Oratory, and English Literature it is the aim of the college to give, so far as it can be done in the time allowed to these studies, familiarity with the principles of Rhetoric and Logic; facility in the application of these principles in the actual work of composition; a natural and effective method of elocution and oratory; and an acquaintance with the history of English literature and criticism, together with a more minute and critical knowledge of some of its masterpieces.

Practical exercises in Elocution and Declamation in Freshman year are followed in the Sophomore and Junior years by careful text-book study of the principles of Rhetoric and of

Logic, both deductive and inductive, and by the writing of themes on assigned subjects, which are criticised and corrected by the instructor in charge. Bacon's *Essays*, and sometimes Milton's *Areopagitica*, are also studied, as an elective course, in Sophomore year. In Junior year there is a required course in practical Rhetoric made up of extemporaneous composition, the delivery of original declamations, and critical study of literary style. There is an elective course in English Literature through the whole of the Senior year, covering, by lectures, the history and development of the literature from the earliest times to the nineteenth century, together with special study in the class-room of the Prologue to Chaucer's *Canterbury Tales* and some of the *Tales*, and of five or six of the plays of Shakespeare.

GREEK.

The study of Greek is required through Freshman year, and is continued as a full elective through Sophomore year, and as a two-hour course during the last two years. Xenophon is the author first studied. To insure the students attaining a certain mastery of the language, one hour of each week is given to the study of Prose Composition, while oral translation into Greek and reading at sight occupy a part of every recitation hour. In the second term, the *Odyssey* is read, and in the third term the Gospel of Mark or the Book of Acts. During the Fall term the Sophomores read a play of Sophocles or Euripides and study the Greek theater and the mode of producing plays at Athens. The first or the seventh book of Thucydides forms the basis of the second term's work, and selected orations of Lysias or Demosthenes are read in the third. The following authors are then read in the order named: Plato, Aristophanes, Herodotus, Æschylus, Lucian, and Pindar, while one term is devoted to archæology. In connection with the study of Thucydides, the military history of the Greeks, with that of Demosthenes, their political history is made prominent, and with each author read, attention is given to the period or class of literature which he represents.

LATIN.

The course in Latin aims to give both systematic training in grammar, and as wide an acquaintance as possible with the

literature and the Roman civilization. In the work of the first two terms particular attention is paid to grammatical study, through the reading of Cicero and Livy, and by means of oral and written exercises in Latin composition. During the latter part of the Freshman year, and throughout the Sophomore year, more attention is given to the style of the authors read and to the life and institutions of the Romans. The courses for the Junior and Senior years alternate; they are intended for those who are especially interested in Philology, and who propose to continue the study of Latin beyond the college course. A portion of the time is devoted to the critical study of some author, the rest to the rapid reading of the literature of some period. The present year will be spent in the study of early Latin, and the next on the authors of the Silver Age. A teacher's course is given in alternate years to those who plan to engage at once in teaching. It treats of the various methods of studying Latin, the books and other helps serviceable to preparatory teachers; and includes the reading of portions of Cæsar and Cicero with reference to the needs of young pupils.

MODERN LANGUAGES.

The study of French is required of the Freshman class throughout the year. In the first term the elements of the language are studied on the lines marked out in Whitney's French Grammar, Part I. From the first, special importance is attached to training the ear to catch the sounds of the natural word-groups, and to appreciate, to some extent, the sentence-accent, or rhythm of the language. In the second and third terms grammatical study is continued in the practice of making simple French sentences. Selected extracts of modern prose are read as a means of extending the student's vocabulary, as well as by way of introduction to the prevailing models of good style. The advanced study of French is open to the members of the Sophomore class as elective work throughout the year. The present year the class studies representative extracts from the works of the leaders of the Romantic movement.

The study of German is required of the Sophomore class throughout the year. Similar stress, as in the instruction in French, is laid on the education of the hearing to appreciate

the living speech. Making simple German sentences is continued as an exercise throughout the year. In the second and third terms short modern prose works, by the best writers, are read. An elective course in advanced German, of four hours a week throughout the year, is open to members of the Senior and Junior classes. The work, which alternates as to texts from year to year, consists this year in the study of Schiller's lyric and dramatic poetry, as shown in his ballads and in *Wilhelm Tell*. During the last term Goethe's prose is studied in selected examples.

BIBLICAL LITERATURE.

The study of the Bible is required during one term of Freshman year, in connection with instruction in Greek. The text of one of the Gospels is studied, lectures are given by the teacher, and essays written by the student, upon topics connected with the life of Christ. A more extended course of study, occupying the last two terms of the year, is offered as an elective to Seniors. No text-book is used, but the so-called seminary method of study is followed. The portions of the Bible taken up vary from year to year, but are always studied from a literary and historical, rather than from a doctrinal, standpoint.

MATHEMATICS.

The study of mathematics is required throughout Freshman year. The course begins with a brief review of the elements of algebra, particularly quadratics; followed by a study of proportion, series, and limits, undetermined coefficients, binomial theorem, and higher equations, this portion of the course being varied as the interest of each class may require. The work of the term is completed by the study of logarithms with applications drawn from plane geometry. The two following terms are given to solid geometry and plane and spherical trigonometry. To those desiring to do additional work a brief course in modern geometry is offered the first term, one in practical mensuration in the second, with field work in surveying during the spring months.

The course in Sophomore year includes analytic geometry, differential calculus with applications and problems in curve

tracing and integral calculus with special reference to the subsequent work of the student.

The Junior elective offered is an extended course in calculus with a brief study of quaternions. This year's work may be accommodated to the special needs or inclination of advanced students in case the usual course is not desired.

CHEMISTRY AND MINERALOGY.

Work in this department begins with the Junior year and continues through the remainder of the course. In each branch an attempt is made, not only to give the student a general knowledge of the science, but also to enable him to do such special work as will conduce to his success as a teacher, physician, or a practical chemist. A large part of the instruction is by laboratory work, and generous appropriations have resulted in the collection of apparatus and materials for this purpose in large amount. A short course of lectures upon the general principles of Chemistry is followed by experimental work, by which these are proved and illustrated, and the elements of qualitative analysis learned. A course of lectures upon descriptive chemistry, in which organic chemistry is touched upon, concludes the required course of Junior year. In the elective work of Senior year, qualitative analysis is continued and quantitative analysis taken up and dwelt upon till its principles are mastered. Each student is then allowed to do special chemical work as he may wish, and the time of the instructor may allow.

In mineralogy the same plan is pursued. The required course gives a general view of the science, and the elective course makes this knowledge more specific by chemical and microscopic examination of minerals in the laboratory and by a course of lectures upon practical mining and the reduction of useful minerals and ores.

PHYSICS AND ASTRONOMY.

Elementary physics is a required study during two terms of the Sophomore year. It is followed in the Junior year by a course designed to furnish laboratory practice. The work is nearly all quantitative, and includes such determinations as: the value of the force of gravity with Kater's pendulum, modu-

lus of elasticity of metals, specific heat, callibration of thermometers. Much time is given to electrical measurements and the determination of magnetic constants. In connection with this practical work, Maxwell's Elementary Electricity is read in the first term, and Wormwell's Thermodynamics in the second.

All undergraduates are required to gain an acquaintance with the principles of astronomy, Young's Elements being the text-book employed in the class-room. For the more especial use of students electing the course in practical astronomy an astronomical observatory is being erected. It will be equipped with instruments of precision, the best of their kind, and an astronomical library. It is also designed to furnish facilities for celestial photography and spectroscopy. This elective course includes the theory and adjustments of instruments and the making and reducing of observations.

BIOLOGY AND GEOLOGY.

The work in Biology is naturally divisible into three parts, the first of which, occupying the third term of the Sophomore year, is largely devoted to the study of plants. It begins with an examination of both animal and vegetable cells, in order that something may be learned of the properties of living matter and of the principles of General Biology. The structure and functions of plants are then taken up in greater detail.

The second part runs through the Junior year. Vital phenomena are then more extensively studied, and much time is spent in the investigation, both anatomically and histologically, of a few types of animals like the frog, lobster, clam, earthworm, starfish, hydroid, and sponge. With these as a basis the student is prepared to undertake the study of animals in respect to their general structure, development, and systematic relations. During the third term of this year particular attention is paid to the anatomy and physiology of mammals, with special reference to the human body.

The third part of the work extends through the Senior year, and is especially adapted to the needs of those who are intending to pursue the profession of medicine or are preparing themselves for the teaching of science in high schools and

academies. It includes work in practical physiology and normal histology. Occasionally a short time is devoted to pathological histology. In all of the above courses abundant facilities are provided for laboratory work and this is required to such an extent as is deemed profitable to the student.

In Geology the elements of the science are taken up in systematic order and as much illustration as is possible is given to each topic. Some attention is paid to local geology and the proper methods of geological observation. Studies of rocks and fossils, particularly those that can be collected by the students, occupy a portion of the time.

PHYSICAL CULTURE.

A brief course of lectures on human anatomy and physiology, illustrated by means of the extensive collections and models of the Medical School, and followed by a similar course on personal hygiene, is given each class upon entering college.

The director of the Gymnasium gives each student a thorough medical and physical examination at the beginning of the college year. From the measurements and strength tests taken a chart is made out for each student, showing his size, strength, and symmetry in comparison with the normal standard; and also what parts of the body are defective either in strength or development. At the same time the student receives a handbook containing the exercises prescribed for the purpose of correcting the physical defects shown by his chart with specific directions in regard to diet and bathing.

From November until April each class is required to exercise in the Sargent Gymnasium, under the supervision of the Director for a half hour on four days of every week. A graded course of class exercise has been arranged. The Freshmen have military drill and Indian club swinging; the Sophomores, exercises with wands or dumb-bells; the Juniors, fencing with single sticks; the Seniors, fencing with foils or broadswords. For the exercises with the chest weights, bars, rings, etc., each class is divided into three divisions and the work is carefully graded to suit the strength of each division.

SYNOPSIS OF THE COURSE OF STUDY.

FRESHMAN YEAR.

FIRST TERM.

LATIN.—Cicero, Tusculan Disputations, Book I. Prose Composition; *three hours a week.*

GREEK.—Xenophon, Cyropædia; *four hours a week.*

MATHEMATICS.—Wentworth's Algebra; Solid Geometry; *four hours a week.*

Extra Course.—Modern Geometry.

FRENCH.—Whitney's Practical French Grammar; *four hours a week.*

HYGIENE.—Lectures; *one hour a week.*

SECOND TERM.

LATIN.—Livy, Selections from Books XXI. and XXII. Prose Composition; *four hours a week.*

GREEK.—The Odyssey; *three hours a week.*

MATHEMATICS.—Solid Geometry and Trigonometry; *four hours a week.*

Extra Course.—Mensuration.

FRENCH.—Modern Prose and Prose Composition; *four hours a week.*

ELOCUTION.—Lectures; Class Exercises and Declamations; *one hour a week.*

THIRD TERM.

LATIN.—Terence, Adelphoe; the Private Life of the Romans, Wilkins's Primer of Roman Antiquities; *four hours a week.*

GREEK.—New Testament Greek; The Gospel of Mark with essays and lectures; *four hours a week.*

MATHEMATICS.—Trigonometry; *four hours a week.*

Extra Course.—Surveying.

FRENCH.—Modern Prose and Prose Composition; *three hours a week.*

ELOCUTION.—Lectures; Class Exercises and Declamations; *one hour a week.*

SOPHOMORE YEAR.

FIRST TERM.

GERMAN.—Otis's Elementary German; *four hours a week.*

RHETORIC.—Genung's Practical Elements of Rhetoric; *four hours a week.*

ENGLISH COMPOSITION.—*Four themes.*

ELECTIVE.

LATIN.—Cicero, Select Letters; Political History of the Period; Selections from Catullus at sight; *four hours a week.*

GREEK.—Sophocles, Œdipus Tyrannus; *four hours a week.*

MATHEMATICS.—Analytic Geometry; *four hours a week.*

FRENCH.—Crane's Le Romantisme Français; *four hours a week.*

SECOND TERM.

GERMAN.—Modern Prose and Prose Composition; *four hours a week.*

PHYSICS.—Mechanics and Electricity; Lectures and assigned work; *four hours a week.*

ENGLISH COMPOSITION.—*Four themes.*

ELECTIVE.

LATIN.—Horace, Selections from the Odes, Satires and Epistles; from Juvenal at sight; *four hours a week.*

GREEK.—The Seventh Book of Thucydides; *four hours a week.*

MATHEMATICS.—Differential Calculus; *four hours a week.*

FRENCH.—Crane's *Le Romantisme Français*; *four hours a week.*

THIRD TERM.

GERMAN.—Modern Prose and Prose Composition; *four hours a week.*

PHYSICS.—Heat and Light; Lectures and assigned work; *four hours a week.*

ENGLISH COMPOSITION.—*Three themes.*

ELECTIVE.

LATIN.—Tacitus, *Annals*, Book I.; *Germania* at sight; *four hours a week.*

GREEK.—Demosthenes, *De Corona*; *four hours a week.*

MATHEMATICS.—Integral Calculus; *four hours a week.*

FRENCH.—Crane's *Le Romantisme Français*; *four hours a week.*

ENGLISH LITERATURE.—Bacon's *Essays*; Milton's *Areopagitica*; *four hours a week.*

BIOLOGY.—Gray's *Lessons in Botany*; Lectures and laboratory work; *four times a week.*

JUNIOR YEAR.

FIRST TERM.

ASTRONOMY.—Young's *Elements of Astronomy*; *four hours a week.*

CHEMISTRY.—Lectures and Laboratory work; *four times a week.*

ENGLISH COMPOSITION.—*Four themes.*

ELECTIVE.

GERMAN.—Schiller, *Wilhelm Tell*; *four hours a week.*

LATIN.—Terence. Critical Study of the *Phormio*; Allen's *Remnants of Early Latin*; *two hours a week.*

GREEK.—Plato, *The Apology* and *Crito*; *two hours a week.*

MATHEMATICS.—Williamson's *Differential Calculus*; *four hours a week.*

HISTORY.—English History, Saxon, Norman, Plantagenet, Lancastrian, and Yorkist Periods.

BIOLOGY.—Laboratory work; *four times a week.*

PHYSICS.—Maxwell's *Elements of Electricity*, and assigned work; *four hours a week.* Some proficiency in mathematics will be required of those electing Junior Physics.

SECOND TERM.

CHEMISTRY.—Lectures and Recitations; *four times a week.*

LOGIC.—Jevon's Logic; *four hours a week.*

ENGLISH COMPOSITION.—*Four themes.*

ELECTIVE.

GERMAN.—Schiller, Wilhelm Tell and Lyric Poems; *four hours a week.*

LATIN.—Rapid reading of Plautus and Terence; *two hours a week.*

GREEK.—Aristophanes; The Clouds; *two hours a week.*

MATHEMATICS.—Integral Calculus; *four hours a week.*

HISTORY.—English History, Tudor and Stuart Periods; *four hours a week.*

BIOLOGY.—Packard's Zoölogy, with lectures and laboratory work; *four times a week.*

PHYSICS.—Theory of Heat; Thermodynamics; experimental work; *four hours a week.*

THIRD TERM.

MINERALOGY.—Lectures and Recitations; *four times a week.*

PRACTICAL RHETORIC.—Extemporaneous composition; original declamations; critical study of literary style; *four hours a week.*

ELECTIVES.

GERMAN.—Goethe's Prose; *four hours a week.*

LATIN.—Syntax; a study of the Cases, Moods, and Tenses; *two hours a week.*

GREEK.—Herodotus; *two hours a week.*

MATHEMATICS.—Quaternions; *four hours a week.*

HISTORY.—Modern History; *four hours a week.*

ANATOMY AND PHYSIOLOGY.—Martin's Human Body, with laboratory work; *four times a week.*

PHYSICS.—Physical Optics; *four hours a week.*

SENIOR YEAR.

FIRST TERM.

PSYCHOLOGY.—Dewey's Psychology; James's Psychology; *four hours a week.*

GEOLOGY.—Le Conte's Elements, with lectures; *four times a week.*

ELECTIVES.

GERMAN.—Schiller, Wilhelm Tell; *four hours a week.*

ENGLISH LITERATURE.—From the Saxon Conquest to the Fifteenth Century;
* Lectures and Readings; Chaucer's Canterbury Tales; *four hours a week.*

PHYSIOLOGY AND HISTOLOGY.—Laboratory work; *four times a week.*

MINERALOGY.—Laboratory work; *four times a week.*

POLITICAL SCIENCE; *four hours a week.*

ASTRONOMY.—Practical Astronomy; *four hours a week.*

LATIN.—Selections from Juvenal, Persius, and Petronius; *two hours a week.*

GREEK.—Æschylus, Agamemnon; *two hours a week.*

SECOND TERM.

HISTORY OF PHILOSOPHY.—Schwegler's History of Philosophy; Selections from Descartes, Locke, and Berkeley; *four hours a week*.

POLITICAL ECONOMY.—Marshall; *four hours a week*.

ELECTIVES.

ENGLISH LITERATURE.—From the Fifteenth to the Eighteenth Century; * Select Plays of Shakespeare; Moulton's Dramatic Art of Shakespeare; *four hours a week*.

ANTHROPOLOGY AND HISTORICAL SOCIOLOGY; *four hours a week*.

BIBLE STUDY.—Introduction to the Gospels and Pauline Epistles; Life of Christ; *four hours a week*.

GERMAN.—Schiller, Wilhelm Tell and Lyric Poems; *four hours a week*.

CHEMISTRY.—Qualitative and Quantitative Analysis; *four times a week*.

PHYSIOLOGY AND HISTOLOGY.—Laboratory work; *four times a week*.

LATIN.—Selections from Quintilian, Martial, and Gellius; *two hours a week*.

GREEK.—Pindar and Lucian; *two hours a week*.

THIRD TERM.

ETHICS.—Lectures on Practical Ethics and the History of Ethical Theory; *four hours a week*.

POLITICAL ECONOMY.—American Economic History, with Problems in Economics; *four hours a week*.

ELECTIVES.

ENGLISH LITERATURE.—Eighteenth and Nineteenth Centuries; *four hours a week*.

BIBLE STUDY.—The Psalms and Selected Passages from the Old Testament; *four hours a week*.

CONTEMPORARY SOCIOLOGY; *four hours a week*.

CHEMISTRY.—Organic; *four times a week*.

PHYSIOLOGY AND HISTOLOGY.—Laboratory work; *four times a week*.

GERMAN.—Goethe's Prose; *four hours a week*.

LATIN.—Teacher's Course in Cæsar's Gallic War and Cicero's Orations; *two hours a week*.

GREEK.—Greek Archæology; *two hours a week*.

* - - - Extra

ADMINISTRATION OF THE COLLEGE.

GOVERNMENT.

In all matters pertaining to the good order of the College, and the relations of the students to one another, the students govern themselves through a Jury.

The Jury consists of undergraduate students in good and regular standing, and is chosen as follows: each of the four classes elects one member, each chartered chapter of an inter-collegiate Fraternity of three or more years' standing in the College, elects one member, and all who do not belong to any such Fraternity elect one member.

The President, however, is at all times at liberty to inquire into the conduct or character of any student, or the circumstances or causes of any disturbance. He may do this with a view of giving private admonition, advice, or warning to students or their friends, in which case his private action, if efficacious and acquiesced in by all concerned, may be final; but it is expressly understood that such private action of the President shall not have the weight of College censure.

RELIGIOUS EXERCISES.

The students are required to attend devotional exercises, consisting of the reading of Scripture, Singing, and Prayer, held in the College Chapel every week-day morning, and a brief service, including an address by the President, on Sunday afternoon. Every student is also required to attend the exercises of public worship on the Sabbath, at one of the Churches in Brunswick.

Prayer-meetings, under the direction of the Young Men's Christian Association, a religious organization of the students, are held on Thursday evenings, and other meetings on Sunday, to which all members of the College are cordially invited.

TERMS AND VACATIONS.

The Academic Year is divided into three terms, a fall term of fourteen weeks, a winter term of thirteen weeks, and a spring term of ten weeks. The holiday vacation of two weeks follows the first term, a spring recess of a week follows the second term, and the summer vacation of eleven weeks follows Commencement Week. Each term begins on a Tuesday morning, and ends on a Friday afternoon. Commencement Day is the fourth Thursday of June.

ABSENCE FROM COLLEGE.

It is of the utmost importance that students be present at College every day of term time, and only an absolute necessity should warrant absence. When pecuniary necessity makes it unavoidable, students may, upon seasonable petition and by vote of the Faculty, have leave of absence during a portion of term time, when actually engaged in teaching, or in literary or scientific pursuits.

DEGREE OF MASTER OF ARTS.

The degree of Master of Arts is conferred upon those graduates of the College who, after taking the bachelor's degree, shall complete an approved course of advanced study equivalent to one year's post-graduate work, and shall pass with credit a written and oral examination on the same. Application for the degree must be made to the Faculty not later than the first of April in the year in which the candidate presents himself for examination.

LABORATORIES AND CABINETS.

The Chemical and Physical Laboratories are supplied with gas, water, steam, and electricity, and furnished with the apparatus and the mechanical appliances necessary for illustration and instruction in the departments with which they are connected, and for practical analytical work by the students.

The Biological Laboratory is well supplied with microscopes, section-cutters, dissecting outfits, and other apparatus, necessary for the study of Botany and Zoölogy.

The upper portion of Massachusetts Hall, converted into a Cabinet of Natural History, through the liberality of the Hon. PELEG WHITMAN CHANDLER, of Boston (Class of 1834), and named the *Cleaveland Cabinet*, in memory of the late Professor PARKER CLEAVELAND, contains the various collections illustrating Natural History belonging to the College.

These collections, to some of which accessions are constantly made, are the following :

The Museum of the First Geological Survey of Maine.

The Cleaveland and Häüy Collections of Minerals.

The Mineralogical and Geological Collections of the late Mrs. FREDERICK ALLEN, of Gardiner, Me.

The Shattuck Conchological Collection.

The Cushman Ornithological Collection.

The Fish Collection of Lepidoptera.

The Blake Herbarium.

The Cleaveland Herbarium.

The Anatomical Museum.

There is also an interesting and constantly increasing collection of Zoölogical specimens, sufficiently extensive to illustrate the various forms of animal life.

Under certain regulations the Cabinets are accessible for purposes of study to all students of the College.

LIBRARIES.

The principal library rooms are Banister Hall, in the east end of the Chapel, and the connected wings. They contain, under one management, the College Library and the Libraries of the Athenæan and Peucinian Societies, together comprising 42,000 volumes.

During term time the library is open every day, except Sundays, from 8 A.M. to 4 P.M. Officers, students, and graduates of Bowdoin College, and clergymen resident in Brunswick and vicinity, may borrow books which, however, are subject to recall if specially needed.

Accessions are made to the library by an annual appropriation of the Boards for the purpose, and from the proceeds of funds contributed by Rev. Elias Bond, D.D., John L. Sibley,

A.M., Hon. Samuel H. Ayer, Dr. R. W. Wood, Mrs. John C. Dodge, Henry J. Furber, Esq., and Capt. John Patten.

The Medical Library of 4,000 volumes is deposited in Adams Hall, which contains the lecture rooms and offices of the Medical Department.

ART COLLECTIONS.

By the will of the Hon. JAMES BOWDOIN, the College, in 1811, came into possession of his collection made in Europe, of about one hundred paintings, and one hundred and fifty original drawings by old and modern masters. To these paintings have since been added the collection of the late Col. GEORGE W. BORD (Class of 1810) and many other valuable gifts. They are exhibited in the Chapel, mainly in Walker Gallery, so named in memory of Mrs. SOPHIA WALKER. The drawings are also exhibited in this room. Some portraits of distinctively College interest are hung in Memorial Hall. The collections are open to the public daily during library hours.

PRIZES.

English Composition Prizes.—The sum of Thirty Dollars is annually given in prizes to members of the Senior class for excellence in English Composition.

Junior Declamation Prizes.—Prizes amounting to Thirty Dollars are given to members of the Junior class for excellence in Oratory at their annual Prize Declamation.

Sewall Premium.—Prizes amounting to Ten Dollars are awarded to members of the Sophomore class for excellence in Oratory at their annual Prize Declamation.

Brown Composition Prizes.—Two Prizes, one of Thirty Dollars and one of Twenty Dollars, given by PHILIP HENRY BROWN, Esq., of Portland (Class of 1851), are offered to the Senior class for excellence in extemporaneous English composition.

Sewall Greek Prize.—A Prize of Twenty-five Dollars, given by Professor JOTHAM BRADBURY SEWALL (Class of 1848), Master of Thayer Academy, and formerly Professor of Greek in the College, is awarded to the member of the Sophomore class who sustains the best examination in Greek, at the annual examination.

Sewall Latin Prize.—A Prize of Twenty-five Dollars, also given by Professor SEWALL, is awarded to the member of the Sophomore class who sustains the best examination in Latin, at the annual examination.

Mathematical Prize.—A Prize of Three Hundred Dollars, given by HENRY JEWETT FURBER, Esq. (Class of 1861), is awarded to the Sophomore whose rank is highest in the mathematical studies of the first two years. (See Smyth Scholarship.)

Goodwin Commencement Prize.—A Prize of Fifty Dollars, given by the late Rev. Dr. DANIEL RAYNES GOODWIN, of Philadelphia (Class of 1832), is awarded each year to the author of the best Commencement Part.

Class of 1868 Prize.—A Prize of Forty Dollars, contributed by the Class of 1868, is given annually to the author of the best written and spoken oration in the Senior class.

Pray English Prize.—A Prize of Fifty Dollars, given by the late Dr. THOMAS J. W. PRAY, of Dover, N. H. (Class of 1844), is awarded each year to the best scholar in English Literature and original English Composition.

Goodwin French Prize.—A Prize of Twenty-five Dollars, given by the late Rev. Dr. DANIEL RAYNES GOODWIN, is awarded annually to the best scholar in French.

ANNUAL EXPENSES.

Tuition, \$75. Room rent (half) average, \$20. Incidentals, \$10. Total regular College charges, \$105. Those who use the Laboratory of Analytical Chemistry are charged additionally at the rate of \$5 a term.

Board is obtained in town at \$2.75 to \$4.00 a week. Other necessary expenses will probably amount to \$40 a year. Students can, however, by forming clubs under good management, very materially lessen the cost of living.

Term bills are due at the end of each term, and if not paid at the beginning of the next term, interest will be charged. No student will be admitted to a higher class nor allowed to attend its recitations until all his bills due to the College shall be paid; and no degrees will be conferred upon students who have not paid their dues to the College.

SCHOLARSHIPS.

The income of sixty-five thousand dollars is devoted to scholarships in aid of meritorious students of slender means.

COMPETITIVE SCHOLARSHIPS.

Brown Memorial Scholarships.—A fund for the support of four scholarships in Bowdoin College, given by the late Hon. J. B. BROWN, of Portland, in memory of his son, JAMES OLCOTT BROWN, A.M., of the Class of 1856.

According to the provisions of this foundation, there will be paid the sum of seventy-five dollars annually to the best scholar in each undergraduate class who shall have graduated at the High School in Portland after having been a member thereof not less than one year.

Smyth Scholarship.—A fund of \$5,000, the gift of HENRY J. FURBER, Esq., of Chicago, named by him in honor of the late Professor WILLIAM SMYTH. The income at six per cent. is given to that student in each Sophomore class who obtains the highest rank in the mathematical studies of the first two years. The rank is determined mainly by the daily recitations; but the Faculty may at their discretion order a special examination, the result of which will be combined with the recitation rank. The successful candidate receives \$100 at the time the award is made. The remaining \$200 are paid to him in installments at the close of each term during Junior and Senior years. If a vacancy occurs during those years, the next in rank secures the benefit of the scholarship for the remainder of the time.

MINISTERIAL SCHOLARSHIPS.

The income of these is to be appropriated for the aid of students preparing to enter the ministry of the Evangelical Trinitarian churches.

Shepley Scholarship.—A fund of \$1,000, given by Hon. ETHER SHEPLEY, LL.D., of Portland, late Chief Justice of the Supreme Court of Maine.

Mary L. Savage Memorial Scholarship.—A scholarship of \$1,000, founded by Rev. WILLIAM T. SAVAGE, D.D., of Quincy, Ill., in memory of his wife, MARY L. SAVAGE.

Benjamin Delano Scholarship.—A scholarship of \$1,000, bequeathed by the late Captain BENJAMIN DELANO, of Bath.

And Emerson Scholarships.—A fund amounting at present to \$6,600, given by the late AND EMERSON, Esq., of Boston, through Rev. Dr. E. B. WEBB.

Stephen Sewall Scholarship.—A scholarship of \$1,000, given by the late Deacon STEPHEN SEWALL, of Winthrop.

GENERAL SCHOLARSHIPS.

John C. Dodge Scholarship.—A fund of \$1,000, given by Hon. JOHN C. DODGE, LL.D.

Alfred Johnson Scholarships.—Three scholarships of \$1,000 each, founded by the late ALFRED JOHNSON, of Belfast, in memory of his grandfather, Rev. ALFRED JOHNSON, and of his father, Hon. ALFRED JOHNSON.

William Sewall Scholarship.—A scholarship of \$1,000, founded by Mrs. MARIA M. SEWALL, in memory of her husband, WILLIAM B. SEWALL, Esq.

Mary Cleaves Scholarships.—Three scholarships of \$1,000 each, founded by the will of the late Miss MARY CLEAVES.

Cram Memorial Scholarship.—A scholarship of \$1,000, founded by Hon. MARSHALL CRAM, of Brunswick, in memory of his son, NELSON PERLEY CRAM, of the Class of 1861, who lost his life in the service of his country.

James Means Scholarship.—A scholarship of \$2,000, given by WILLIAM G. MEANS, Esq., of Andover, Mass., in memory of his brother, Rev. JAMES MEANS (Class of 1833), who died in New Berne, North Carolina, in the service of the United States.

Charles Dummer Scholarships.—Six scholarships of \$1,000 each, given by Mrs. ALMIRA C. DUMMER, in memory of her husband, CHARLES DUMMER, A.M., who was for many years a member of the Board of Overseers.

W. W. Thomas Scholarship.—A scholarship of \$1,000, founded by Hon. W. W. THOMAS, of Portland.

Buxton Scholarship.—A fund at present amounting to \$2,500, contributed by CYRUS WOODMAN, Esq., of Cambridge, Mass., in aid of deserving students, preference being given to natives and residents of Buxton.

Pierce Scholarship.—A scholarship of \$1,000, bequeathed by MRS. LYDIA PIERCE, of Brunswick, in memory of her son, ELIAS D. PIERCE.

Blake Memorial Scholarships.—A fund of \$4,000, bequeathed by MRS. NOAH WOODS, of Bangor, in memory of her son, WILLIAM A. BLAKE, of the Class of 1873.

Huldah Whitmore Scholarships.—Two scholarships of \$2,500 each, given by HON. WILLIAM GRISWOLD BARROWS, LL.D., of Brunswick, in memory of his wife, to be awarded by the President under certain conditions.

Nathaniel McLellan Whitmore Scholarship and George Sidney Whitmore Scholarship.—Two scholarships of \$1,000 each, given by MRS. MARY J. WHITMORE, in memory of her sons, NATHANIEL McLELLAN WHITMORE, of the Class of 1854, and GEORGE SIDNEY WHITMORE, of the Class of 1856.

George Franklin Bourne Scholarship.—A scholarship of \$1,000, given by MRS. NARCISSA SEWALL BOURNE, of Winthrop.

William Little Gerrish Scholarship.—A scholarship of \$1,000, given by Dr. F. H. GERRISH, in memory of his brother, WILLIAM LITTLE GERRISH, of the Class of 1864.

Lawrence Scholarships.—A fund of \$6,000, given by MRS. AMOS LAWRENCE, of Massachusetts, the income to be annually appropriated for the whole or a part of the tuition of meritorious students in Bowdoin College who may need pecuniary assistance, preference being given to those who shall enter the college from Lawrence Academy at Groton, Mass.

G. W. Field Scholarships.—Two scholarships of \$2,000 each, given by Rev. GEORGE W. FIELD, D.D., of Bangor (Class of 1837), the income of which is to go to students or graduates of the Bangor Theological Seminary, or to persons named by the Bangor Central Church, who become students of this College.

THE AMERICAN EDUCATIONAL SOCIETY.

Young men in need of aid, who are studying for the ministry of the Congregational Church, may be assisted by this Society to the amount of \$75 a year.

MEDICAL ATTENDANCE.

Henry Prentiss Godfrey Fund.—A fund of \$500, given by Mr. and Mrs. GEORGE F. GODFREY, of Bangor, in memory of

their son, HENRY PRENTISS GODFREY, is devoted to providing medical supervision of the College and medical attendance for students who may be sick while in College.

ACKNOWLEDGMENTS.

The Cleaveland Cabinet has been enriched during the past year by many specimens of iron ore and iron from the Southern States, and by specimens of ores and woods from Nevada, presented by WILLIAM H. LOWELL, Esq., of the Class of 1841, who has also given a large drawing illustrating the famous Comstock mines of Virginia City.

MEDICAL FACULTY.

REV. WILLIAM DEWITT HYDE, D.D., PRESIDENT.

ISRAEL THORNDIKE DANA, A.M., M.D.

ALFRED MITCHELL, A.M., M.D., SECRETARY.

MEDICAL SCHOOL OF MAINE.

The Medical School of Maine, by an act of the Legislature, is placed under the superintendence and direction of the Board of Trustees and Overseers of Bowdoin College. By their joint authority all the degrees of M.D. are conferred.

The seventy-first Course of Lectures will begin February 5, 1891, and continue twenty weeks, ending June 24th. The introductory lecture will be delivered at 3 o'clock P.M., by Professor CHARLES D. SMITH, M.D.

MEANS OF INSTRUCTION.

The specimens of Normal, Morbid, and Comparative Anatomy are annually increased in number. The Museum has lately been thoroughly re-arranged and enriched by purchases abroad.

The Chemical Department embraces every article of apparatus essential to complete illustration of the principles of Chemistry.

A new laboratory has recently been furnished for special courses in analytical chemistry, urinary analysis, and toxicology. These courses are strongly recommended to every student. They will be entered upon immediately after the closing of work in the dissecting room.

The lectures in Physiology are illustrated by Auzoux models and by experiments.

Dr. Charles D. Smith will continue his instruction in a short course of lectures upon Public Hygiene.

Instruction in Normal and Pathological Histology is afforded without extra charge. A short course of lectures upon Microscopy will be given by the Demonstrator of Histology. Students owning microscopes are requested to bring them for use in their classes.

Students are advised to prepare for their anatomical and physiological studies by the dissection of the cat, dog, rabbit,

and frog, using Wilder & Gage's Anatomical Technology, Foster & Langley's Practical Physiology, or Huxley & Martin's Biology. Abundant dissecting material is furnished at cost.

CLINICS.

Medical and Surgical Clinics will be held every Saturday morning during the last half of the term, beginning at nine o'clock and closing at half-past eleven.

All examinations in the presence of the class are made without charge. All surgical operations are gratuitously performed.

TERMS OF ADMISSION AND FEES.

Especial attention is called to the new requirement of attendance upon three full courses of lectures before graduation; this condition with the corresponding re-adjustment of fees becomes operative in the case of all who will graduate after 1892; in order that no misunderstanding may arise on the part of those who have hitherto attended one or more courses of lectures, it is thought best to announce that conditions of lecture attendance and payment of fees will be regarded and received as hitherto announced.

It is desired that a literal interpretation shall be placed upon the stated requirements of the candidates for matriculation, as hitherto there have been not unfrequent examples of those who inquire if other conditions than those named will not serve in lieu of the examination. The same consideration is asked for the explicit conditions named as regulating the prepayment in cash of fees.

Candidates for matriculation will be required to give evidence that they possess a good English education. Those who are graduates of colleges, normal schools, high schools, or have passed the entrance examination to any recognized college, on presentation of their diplomas or matriculation tickets, will be exempt from examination. Examinations will be held on Thursday, February 5th, at 9 o'clock A.M.

The fee for admission to the several Courses of Lectures, payable strictly in advance, and by cash only, is \$78. Matriculation fee, payable each term, \$5.

Pupils who have attended three full courses of medical lect-

ures, two of which have been in this school, are admitted to all subsequent courses without payment of any lecture fees.

Students who have attended two full courses at other regular medical institutions are required to pay \$50 for admission to their first course of lectures at this school, in addition to the matriculation fee.

A fee of five dollars shall be paid for final examination in each department in which a student presents himself for examination, previously to the payment of his diploma fee.

If a student fails to pass the examination in a given department in one year he may be examined in a subsequent year in the same branch, on payment of a fee of three dollars.

The total amount paid by a student in examination fees at five dollars each shall be credited on his diploma fee.

The graduation fee (which is not returnable), including the diploma, is \$25.

No student will be allowed to attend any Course of Lectures in this school, without the certificate of the Secretary. Members of the medical profession are cordially invited to attend the lectures at any time.

Graduates of other schools, who have been engaged three years in the regular practice of medicine, may receive a general ticket upon presentation of their diplomas and payment of the matriculation fee. Students are expected to remain until the close of the term.

EXAMINATIONS AND GRADUATION.

Students and particularly candidates for graduation will be examined at least twice each week in each department by its Professor.

The Faculty, believing it to be desirable for students to pay especial attention to the preliminary branches during the first portion of their course of study, in order that they may be better prepared to appreciate the more advanced subjects, in the latter part, have arranged that any student may present himself for examination in Anatomy, Physiology, and Chemistry (any or all) at the regularly appointed time for examination, provided he previously presents to the Secretary satisfactory evidence that, at the close of the current term, he will have completed at least twelve months of actual study, and have attended

a full course of lectures in this school. Those who are examined in Anatomy are required to present evidence that they have, under competent instructors, dissected not less than two parts. The same requirements will be enforced in the cases of those who are examined in this department at graduation. Any student may also present himself for final examinations in *Materia Medica* and Therapeutics, and in Obstetrics, at the regularly appointed time for examination, providing he previously presents to the Secretary satisfactory evidence that, at the close of the current term, he will have completed at least two years of actual study and have attended two courses of lectures, the second of which must have been in this school. An official record of the result of the successful examinations shall be kept by the Secretary. The successful passage of an examination will not exempt a student from faithful attendance upon any exercises in any department during subsequent courses.

The examinations for the degree of Doctor of Medicine are held at the close of the course of lectures. Degrees will be conferred upon Wednesday morning, June 24th, after the usual graduating exercises.

The candidates must be twenty-one years of age, and must have devoted three years to their professional studies under the direction of a regular practitioner of medicine. They must have attended three full courses of lectures (operative after 1892) in some regular, incorporated medical institution, the last course previous to examination must have been at this school, and fifteen months' time must have elapsed between the beginning of a student's first course of lectures and his graduation. They must deposit with the Secretary of the Faculty satisfactory certificates of good moral character, and of having pursued their medical studies for the required term. They must also pass a satisfactory written and oral examination in Anatomy, Physiology, Surgery, Chemistry, *Materia Medica*, Pharmacy, Obstetrics, Pathology, and Practice. They must also present a Thesis or Dissertation on some medical subject, a fair copy of which must be deposited with the Secretary of the Faculty at least ten days before the commencement of the examinations at the close of the lectures. These copies are preserved in the Medical Library.

Students on arriving should call at once on the Secretary of the Faculty to enter their names, present their certificates, and purchase their tickets. They may also obtain from him all necessary information in regard to boarding houses. The price of board varies from \$3.00 to \$5.00 per week.

TEXT-BOOKS.

ANATOMY.—Text-books, Quain or Gray. For the Dissecting Room, Weisse's Practical Human Anatomy, Ellis's Demonstrations, or Heath's Practical Anatomy.

CHEMISTRY.—Bartley's Medical, Richter's Organic and Inorganic.

PHYSIOLOGY.—Yoe, Laudois, Foster, Kirke.

MATERIA MEDICA AND THERAPEUTICS.—Bartholow, Brunton, H. C. Wood, Gerrish on Prescription Writing.

PRACTICE OF MEDICINE.—Flint, Bartholow, Bristowe, Loomis, Strumpell.

PATHOLOGY.—Green, Rindfleisch's Elements, Ziegler's Text-book.

PHYSICAL DIAGNOSIS.—Flint, DaCosta, Loomis, Seifert & Muller.

DISEASES OF CHILDREN.—J. L. Smith, Vogel, West.

SURGERY.—Agnew, Gross, Erichsen, Druit, Clark.

SURGICAL PATHOLOGY.—Billroth, Paget.

MIDWIFERY.—Lusk, Playfair, Parvin, Galabin.

DISEASES OF WOMEN.—Thomas, Winckel, Skene.

MEDICAL JURISPRUDENCE.—Tyler, Ordronaux, Beck.

APPOINTMENTS AND AWARDS.

COMMENCEMENT APPOINTMENTS, 1890.

Master's Oration, Austin Cary.
Valedictory, Charles Jacques Goodwin.

ORATIONS.

Salutatory, Warren Rufus Smith.
George Wesley Blanchard, Henry Harmon Hastings,
Frank Emory Dennett, Walter Reid Hunt,
George Franklin Freeman, Albert Sidney Ridley,
Walter Irving Weeks.

PHILOSOPHICAL DISQUISITIONS.

Homer Ellsworth Alexander, Willian Horace Greeley,
Edgar Frank Conant, Frank Purinton Morse,
Frank Edward Simpson.

LITERARY DISQUISITIONS.

Walter Elliot Cummings, John Marshall Washburn Moody,
William Wingate Hubbard, Elvington Palmer Spinney,
Charles Lyman Hutchinson, Aretas Elroy Stearns,
Wilmot Brookings Mitchell, Harry Cargill Wingate.

DISQUISITIONS.

Percy Willis Brooks, Thomas Cotter Spillane,
Edward Aloysius Francis McCullough, Victor Veranus Thompson,
Joseph Brooks Pendleton, George Averill Tolman,
Herbert Clarence Royal, Oliver William Turner,
Henry Wilson Webb.

DISCUSSIONS.

Fred John Allen, Gilbert Berry Littlefield,
Ernest Leon Bartlett, George Bowman Sears,
William Trickey Dunn, Jr., Arthur Vincent Smith.

CLASS OF 1868 PRIZE SPEAKING.

CLASS OF 1890.

George Wesley Blanchard,	Gilbert Berry Littlefield,
George Brinton Chandler,	John Marshall Washburn Moody,
William Horace Greeley,	Walter Irving Weeks.

JUNIOR PRIZE DECLAMATION.

CLASS OF 1891.

Dennis Milliken Bangs,	Henry Whiting Jarvis,
Lewis Albert Burleigh,	John Francis Kelley,
Edward Nathan Goding,	Edward Henry Newbegin,
Emerson Hilton,	Albert Kansas Newman,
Ralph Hudson Hunt,	Charles Sias Wright.

SOPHOMORE PRIZE DECLAMATION.

CLASS OF 1892.

Percy Bartlett,	Harry Farrar Linscott,
Roy Fairfield Bartlett,	Daniel McIntyre,
Frank Durgin,	James David Merriman,
Henry Crosby Emery,	Everett Alberton Pugsley,
Leon Melcher Fobes,	Charles Selwyn Rich,
Theodore Studley Lazell,	Edward Hazen Wilson.

AWARDS IN 1890.

GOODWIN COMMENCEMENT PRIZE.

Wilmot Brookings Mitchell.

CLASS OF 1868 ORATORICAL PRIZE.

George Brinton Chandler.

ENGLISH COMPOSITION PRIZES.

First Prizes, . . George Wesley Blanchard,
George Brinton Chandler.

Second Prizes, Walter Irving Weeks,
Harry Cargill Wingate.

BROWN PRIZES FOR EXTEMPORANEOUS COMPOSITION.

First Prize, . . Walter Irving Weeks.

Second Prize, George Brinton Chandler.

JUNIOR DECLAMATION PRIZES.

First Prize, . . Emerson Hilton.

Second Prize, Henry Whiting Jarvis.

SOPHOMORE DECLAMATION PRIZES.

First Prize, . . Daniel McIntyre.

Second Prize, Charles Selwyn Rich.

SEWALL LATIN PRIZE.

Percy Bartlett.

SEWALL GREEK PRIZE.

Earl Boynton Wood.

SMYTH MATHEMATICAL PRIZE.

Fred Ober Fish,
Thomas Flint Nichols.

BROWN MEMORIAL SCHOLARSHIPS.

Henry Eastman Cutts, Class of 1891.

Leon Melcher Fobes, Class of 1892.

John Higgins Pierce, Class of 1893.

MODERN LANGUAGE PRIZES.

Lewis Albert Burleigh,

Ivory Chandler Jordan,

Weston Percival Chamberlain.

HONORS IN CONSTITUTIONAL HISTORY.

Frank Emory Dennett.

HONORS IN LATIN.

Percy Bartlett,

Fred Vincent Gummer,

Earl Boynton Wood.

HONORS IN FRENCH.

Algernon Sidney Dyer,

Everett Gray Loring,

Charles Sias Wright,

CALENDAR FOR 1890-91.

1890.

- Sept. 16—First Term began, Tuesday.
Oct. 19—Sermon before Y. M. C. A., Sunday.
Dec. 18—Sophomore Prize Declamation, Thursday.
Dec. 16-19—Examinations, Tuesday to Friday.

VACATION OF TWO WEEKS.

1891.

- Jan. 6—Second Term begins, Tuesday.
Jan. 29—Day of Prayer for Colleges, Thursday.
Feb. 5—Medical Term begins, Thursday.
April 2—Senior Prize Speaking, Thursday.
March 31-April 3—Examinations, Tuesday to Friday.

VACATION OF ONE WEEK.

- April 14—Third Term begins, Tuesday.
June 2-5—Senior Examination, Tuesday to Friday.
June 16-19—Examinations, Tuesday to Friday.
June 21—Baccalaureate Sermon, Sunday.
June 22—Junior Prize Declamation, Monday.
June 23—Class Day, Tuesday.
June 24—Graduation Exercises of Medical School, . . . Wednesday.
June 24—Annual Meeting of the Phi Beta Kappa Society, Wednesday.
June 25—Commencement Day, Thursday.
June 25—Annual Meeting of the Alumni, Thursday.
June 26 and 27—Entrance Examinations, . . . Friday and Saturday.

VACATION OF ELEVEN WEEKS.

- Sept. 11 and 12—Entrance Examinations, . . . Friday and Saturday.
Sept. 15—First Term begins, Tuesday.

ALUMNI ASSOCIATIONS.

The General Association.

President, FREDERIC HENRY GERRISH, M.D.; *Vice-President*, CHARLES FREEMAN LIBBY, Esq.; *Secretary and Treasurer*, MR. GEORGE T. LITTLE, Brunswick, Maine.

Association of Boston.

President, HON. WILLIAM WHITNEY RICE, LL.D.; *Secretary*, MR. ARTHUR TAYLOR PARKER, 46 Oliver Street, Boston, Mass.

Association of New York.

President, ALMON GOODWIN, Esq.; *Secretary*, DR. FRED HENRY DILLINGHAM, 344 Lexington Avenue, New York City.

Association of Washington.

President, HON. MELVILLE WESTON FULLER, LL.D.; *Secretary*, MR. JAMES CHARLES STROUT, 124 E Street N. W., Washington, D. C.

Association of the Northwest.

President, LEANDER OTIS MERRIAM, A.M.; *Secretary*, JOHN O. P. WHEELWRIGHT, Esq., 420 Temple Court, Minneapolis, Minn.

Association of Portland.

President, HON. GEORGE FREEMAN EMERY; *Secretary*, DAVID WILLIAM SNOW, Esq., 36 Exchange Street, Portland, Maine.

Association of Franklin County.

President, ALEXANDER HAMILTON ABBOTT, A.M.; *Secretary*, Prof. GEORGE COLBY PURINGTON, Farmington, Maine.

ALUMNI RECORD.

It is desired to keep as full a record as possible of the residences, occupations, and public services of the alumni. Information is solicited in regard to these points, and also in regard to matters appropriate to the obituary record annually published by the College.

Communications should be addressed to the College Librarian.

PREPARATORY SCHOOLS.

The schools noticed on the following pages have been constituted special Fitting Schools for Bowdoin College by the action of their several Boards of Trustees, in concurrence with the College Boards. Their annual examinations are attended by committees appointed each year by the Trustees and Overseers of the College. Upon the certificate and recommendation of these committees students are admitted to the College without further examination.

FRYEBURG ACADEMY.

Incorporated February 9, 1792.

JOHN EDWARD DINSMORE, A.M., PRINCIPAL.

This school, in the Western County of Oxford, with an honorable record of nearly a century, and with a complete and competent Board of Instruction, offers three courses of study :

- I. A College Preparatory Course, of four years.
- II. An Academic Course, of four years.
- III. An English and Normal Course, of three years.

EXPENSES.

TUITION.—For Common English Studies, \$5.00; for Higher English and Penmanship, \$6.00; for Languages, Book-Keeping, and Elocution, \$7.00. Drawing, Painting, and Music are extra.

BOARD.—The cost of board is from \$3.00 to \$4.00 a week, including fuel, lights, and washing. Rooms in private houses may be obtained at from 30 to 50 cents a week. Board in clubs, if desired, at very cheap rates.

CALENDAR.

Fall Term of 12 weeks, began September 3, 1890.

Winter Term of 12 weeks, begins December 10, 1890.

Spring Term of 12 weeks, begins March 18, 1891.

EXAMINING COMMITTEE.

Appointed by the College for 1890.

REV. EDWIN BONAPARTE WEBB, D.D.

ALFRED MITCHELL, A.M., M.D.

Prof. ERNEST MONDELL PEASE, A.M.

WASHINGTON ACADEMY,

EAST MACHIAS, ME.

Incorporated March 7, 1792.

IVORY HOVEY ROBINSON, A.M., PRINCIPAL.

This venerable Academy, situated in the Eastern County of Washington, with a generous endowment, and under the charge of experienced teachers, offers two courses of study :

- I. A College Preparatory Course, of four years.
- II. An English Course, of three years.

EXPENSES.

TUITION.—As the income of the endowment fund pays most of the expenses of the school, the tuition fee is only \$4.00 a term, with no extra charges for languages or book-keeping.

BOARD.—The cost of board does not exceed \$3.50 a week. Rooms can be obtained, by those who wish to board themselves, at reasonable rates.

CALENDAR.

Fall Term, of 13 weeks, began September 8, 1890.

Winter Term, of 13 weeks, begins December 15, 1890.

Spring Term, of 13 weeks, begins March 23, 1891.

EXAMINING COMMITTEE.

Appointed by the College for 1890.

Hon. JOHN APPLETON, LL.D.

JOHN BAKEMAN REDMAN, Esq., A.M.

Prof. FRANK EDWARD WOODRUFF, A.M.
